College of Europe – 30 Years of Professional Training in EU Affairs – 2026 Offer

Dear Ambassador,

This year marks the 30th anniversary of the Executive Education, Training & Projects Office of the College of Europe. Since 1996, we have been designing and delivering high-level executive education, professional training, and international project services in the field of EU Affairs. On this occasion, it is our pleasure to share with you the attached leaflet presenting our executive training courses for the current year.

Over the past 30 years, our multinational team has successfully trained several thousands of participants annually from over 65 countries and implemented more than 250 international projects across 40 countries worldwide. From 2025 onwards, our activities are also delivered at our newly established College of Europe Campus in Tirana, Albania. To celebrate these important milestones, as part of our continuous development, and in response to growing demand, our executive courses are now offered on a rolling basis throughout the entire year, allowing participants and partner institutions to engage with our programmes at times that best suit their professional commitments.

Allow us to draw your attention to the **33rd edition** of the '*Intensive Seminar on the European Union*' that might be particularly useful for the new comers in your team as it is a great way to immerse oneself in EU affairs. Every year, this seminar brings together over sixty participants from different backgrounds – including from embassies, missions, permanent representations, public institutions, companies, and academic institutions – to get a 360 degree overview of how the EU works, acquire practical skills particularly relevant for professionals working in Brussels and for discussions and experience-sharing in the stimulating atmosphere of the College of Europe in Bruges. Reproducing the '*esprit du Collège*' on a more intimate scale, the programme fosters lasting professional connections.

We offer two alternative tracks, each tailored to align with the participants' backgrounds and needs:

Governance Programme (29 June – 10 July 2026, Bruges & Brussels): a two-week deep dive into EU decision-making procedures and actors, featuring hands-on exercises and a study visit to EU institutions in Brussels.

Policies & Priorities Programme (29 June – 3 July 2026, Bruges): a one-week intensive seminar on the EU's legislative priorities and key EU political topics, offering the latest policy insights and analysis.

Additionally, every year, the College of Europe Executive Education, Training & Projects Office runs thirteen other executive education courses on EU Affairs, both **onsite, and online**. The courses focus on the EU's main policy areas and related skills, such as EU Energy Policy, Competition Policy & Digital Markets, EU Diplomacy & Diplomatic Skills, European Defence & Security, EU Project Management (delivered both in Tirana, Bruges and online) and Negotiations Skills both with and within the EU. More information is available in the attached flyer or at this link: www.coleurope.eu/executiveeducation.

Should you have any questions or require further information about our services, please do not hesitate to contact us, we would be happy to answer to your questions.

On behalf of the College of Europe, we hope to see you or members of your team in Bruges, online or in Tirana this year.

Yours sincerely,

Claire Lawrence and Cesare Zegretti
Co-Directors of the Executive Education, Training & Projects Office
